

BEGINNER ANALYST – JOB DESCRIPTION

Job Title: Analyst (Entry-Level)

Overview: We are looking for a motivated and detail-oriented Analyst to join our team. This role is ideal for fresh graduates or candidates starting their careers in analytics.

Key Responsibilities:

- Gather and organize data from various sources.
- Perform data cleaning and validation.
- Analyze datasets to identify trends and patterns.
- Create reports, dashboards, and visualizations.
- Assist senior analysts in research and business analysis.
- Present findings clearly and concisely.
- Support decision-making through data-driven insights.

Required Skills:

- Basic knowledge of Excel, SQL, and data analysis.
- Understanding of statistics and data visualization concepts.
- Problem-solving and analytical thinking.
- Good communication and presentation skills.
- Attention to detail.

Preferred Qualifications:

- Bachelor's degree in a relevant field.
- Familiarity with Python, Power BI, Tableau, or similar tools.
- Internship or academic project experience in analytics is a plus.
